## Time & time Again

# CRYPTOCURRENCY PROBLEMS

What are current problems EVERY blockchain is faced with,

EVERY level of user in cryptocurrency is faced with,

AND the whole Market Cap is faced with?

01

Human error even if mistakenly

02

Everyone always sends test transactions prior to submitting their real transaction leading to additional fees and time to avoid FEAR of losing the money involved with the transaction

03

Transactions being sent to the **WRONG WALLET ADDRESS**

04

Everyone has a fear of losing one's private keys and access to their wallet

05

The normal fear and stress at all levels of crypto users when sending transaction

06

Transactions being sent to the wrong token / coin type: BEP2 vs BEP20 VS ERC20 VS ERC721

# PROBLEM #2 REFERENCE

<https://www.consultancy.uk/news/25975/global-market-size-of-digital-payments-industry-soares>

## Global market size of digital payments surpassed 700 billion transactions in 2020

Total number of transactions for	2020	700,000,000,000	
Avg transaction fee			Estimated Fees
test (\$25) BNB	\$	0.06	<b>\$ 42,000,000,000</b>
BNB	\$	1.14	\$ 798,000,000,000
BTC	\$	23.86	\$ 16,702,000,000,000
ETH	\$	24.67	\$ 17,269,000,000,000
AVG	\$	12.45	\$ 8,715,000,000,000

What if the \$42,00,000,000 ANNUALLY went back to the USERS?

As more people adopt using Crypto there will be an increase in the number of transactions taking place

More transactions = More fees

### MODUS

resolves this problem immediately which then in turn results in less transactions taking place across the whole global market, less fees being charged, and more money to the user.

# SOLUTION

# MODUS

# WHAT ARE THE USE CASES?

## 1. Store of Value

Retains future purchasing power

Readily exchangeable for something else

## 2. Transactional Types

### Private

Zero Proof Technology

---

Full decentralized as Blockchain was intended

---

Natural transaction IE off chain

### Public

Receipt

---

Blockchain hash recording

---

Omnimodus Dusnet Platform IE on chain

### 3. Blockchain Choice

#### SPEED

One of the fastest  
in the market @ est  
Million+ TPS

#### SECURITY

Definitive security  
features  
including 3FA

#### SCALABILITY

Cross chain ever  
evolving abilities with  
the potential of  
Horizontal Sharding

Will be one of the most reliable, safest, Decentralized, & Renounced

## 4. Human Error is removed

### Timer

The Receiver of MODUS will have a certain amount of time to enter a password for transaction or it will be sent back to Sender automatically

### Tries

The Receiver of MODUS will have a certain number of tries to enter a password for transaction or it will be sent back to Sender automatically

### Password

The Receiver of MODUS will immediately receive a password via text or email from the Sender to proceed with the transaction

### Undo

Sender will have 2 options prior to sending the transaction:

Cancel or Bypass

# 5. Emotion & Fear are removed when making a transaction

Scared to make transactions but NOW knowing either the Receiver will claim it or it is returned to the Sender

Those who already have lost due to a variety of transactional errors NOW gain a sense of relief when sending a transaction

Risk vs Reward in every transaction NOW have mitigated most of the potential risks when submitting a transaction

Accidents vs Mistakes will always happen but NOW have the ability to resolve any that may occur when performing a transaction

## 6. Benefactor Service

**Enter up to any # of wallet address**

**Enter in a date & time**

Should you not ever gain control of your wallet,  
lose your the password,  
or lose your seed phrase

**THEN**

**Your Wallet will send any remaining MODUS to those  
Wallet Addresses on those Dates as the User has previously specified**

## 7. COIN USE CASE VERSE COMPANY / PLATFORM USE CASE

OMNIMODUS  
DUSNET

Needs to survive----->

<----- Does not need to survive

MODUS

MODUS DOES NOT NEED OMNIMODUS OR DUSNET TO EXIST OR BE TRADEABLE ON EXCHANGES

BUT

OMNIMODUS REQUIRE MODUS FOR THE DUSNET PLATFORM TO WORK AND EXIST,  
GO ABOUT BUSINESS, & CARRY ON THE MISSION AND VISION OF THE COMPANY

Funds are never held  
in Company hands

Company is Not an  
escrow service  
or money services  
broker

Doesn't require Company  
internal servers  
For MODUS to be  
executable

## 8. SERVICES

MODUS will never generate any revenues or have an expectation of profits BUT Omnimodus will have many streams of income generation that will evolve over time & potentially consist of but inclusive of:

1. Selling MODUS coins
2. Transactional fees on the platform
3. Advertising
4. Sponsorships
5. Investment purchases of other new Blockchains or Nodes
6. Neobank
7. Cold Storage wallets
8. Ugandan Coffee milling / distribution
9. Production Company for crypto related hallmark movies
10. Among other potential ideas, projects, entities to be determined

## MODUS legalities

This coin could potentially be one of the most traded currencies with one of the most valid uses among the crypto atmosphere that could ease the fears of those US regulators who oppose crypto but it is the belief of OMNIMODUS, INC that the creation of MODUS:

\*\*\* Multiple Legal Opinion Letters from prominent US Attorneys specializing in Security laws and Cryptocurrency will be provided upon funding

01

Passes the US Supreme Court, SEC V W.J. Howey CO under the Howey Test as stated in:

[SEC v. W.J. Howey Co., 328 U.S. 293 \(1946\)](#)

02

Follows the Digital Asset framework as stated in:

[Statement on “Framework for ‘Investment Contract’ Analysis of Digital Assets”](#)

03

Will abide by

[Lummis-Gillibrand Responsible Financial Innovation Act](#)

# TIMELINE

## Phase 1

### FRETUS

- NEOBANK through Evolve Bank
- Banking products
  - Checking & Savings Account
  - Routing and Account # for bill pay abilities and wire transfers
  - Teen accounts
  - Crypto to fiat & Vice versus
  - Debit card

## Phase 2

### MODUS

- On/Off blockchain transactions
- Speed, Security, Scalability
- Doesn't need a platform to work
- 40 business days upon adequate funding

## Phase 3 & 4

### SALUS & DECENTI

- Internal SWAP for on & off chain abilities  
\* this will be ever-evolving
- Remove the means of bridging
- 60 business days after Phase 2 completion

## Phase 5

### BENFACTOR

- Never lose your wallet assets
- Automatic Wallet Redemption
- 60 business days after Phase 3 completion

\* Phase 6 **DUSNET**  
60 Business days after  
Phase 5 Completion

# USE OF FUNDS\*

REQUESTING  
**\$64,220,000\*\***

\*\*Monies being invested into OMNIMODUS for the creation of MODUS is for Equity into the Company each Investor will:
